POLL VOTING

Walk-in Ballot

A walk-in ballot voter is a voter that has received his ballot, filled it out and is walking in to drop it into the Polling Place Box. (A voter who has not received his ballot, has lost his ballot or has spoiled his ballot.)

A walk-in ballot voter must present to the Election Committee a valid drivers license, identification card or a Rincon Tribal Identification Card when registering.

The walk-in ballot voter is to first sign the Polling Register Sheet. After signing the Polling Register Sheet, drop the ballot in the Official Polling Place Ballot Box.

The walk-in ballot should go by the same process as the mailing ballot except for the rules that apply for walk-in balloting.

Walk-in Voter Requesting New Ballot

If a voter has lost, spoiled or has not received his ballot, he may request a new ballot at the Polling Place.

A voter requesting a new ballot for the reasons above must first register on the Walk-in Ballot Registration Sheet, marking the reason for needing a new ballot.

After a voter has registered for a new ballot, the Election Committee shall give to the voter an inner-labeled coin envelope with a label for his printed name, signature and written enrollment number.

The Election Committee shall inform the eligible voters where the polls will be held on the Rincon Reservation. This information should be contained in the Instructions to Voters.

The polls shall be open from 7:00 a.m. to 7:00 p.m.

Lost, Spoiled or Not Received Ballots

Any person claiming to have lost and or not received their ballot can cast their ballot in person at the voting polls.

The voter requesting a duplicate ballot shall show the same identification as listed above, print and sign the Walk-in Ballot Registration Sheet and mark off the appropriate column for request.

The Election Committee member is to verify and write in the enrollment number of any individual member requesting a duplicate ballot on the Walk-in Ballot Registration Sheet as well as the coin envelope containing the ballot.

The Election Committee Member shall also sign their own name onto the Walk-in Ballot Registration Sheet.

The Election Committee Member is then to give the coin envelope containing a ballot, along with a copy of the Instructions to Voters Sheet.

The voter is to fill out his ballot, place it back into the coin envelope and then seal it. Then he is to place it into the Polling Place Box and immediately leave the polling area.

No politicking or campaigning within the fenced areas of the Tribal Hall while the polls are open.

Distance From Voters (Polling & Counting Ballots)

The Election Committee shall deal with one voter at a time during the polling place voting. Those coming to vote on Election Day shall remain twenty-five (25) feet away from the Election Committee work area until they are called upon by the Election Committee one at a time.

SECTION 10**COUNTING BALLOTS (ELECTION DAY)****Non-Interference of Election Process**

All non-committee members shall stay at least 25 feet away from the Election Committee members and or sort table. Non-committee members shall refrain from any interference of the Election Committee carrying out their responsibilities.

The Election Committee is to make sure that any chairs that are in the audience are a minimum of twenty-five (25) feet away. The Election Committee may also put up rope and or any other barriers as to assure the twenty-five (25) feet minimum distance.

All Election Committee members must refrain from having any personal or non-pertinent dialogue with the audience.

The observance of election tallying is a privilege extended to all eligible voting Tribal Members. As a privilege, Band Members are to respect the task that the Election Committee has to accomplish.

Distracting, badgering, debating or criticizing is not to be tolerated by the Election Committee. The Election Committee will give one verbal warning and if the member or their guest continues to violate this rule, the member could be fined \$250.00 out of his or her per capita payment for each occurrence.

Per Election Committee, any other occurrences will be directed to the Rincon Business Committee. The Business Committee will make the decision after reviewing any documentation or video tape.

At the meeting for counting the ballots:

Step 1 (Undeliverable envelopes)

The Election Committee is to count the number of the undeliverable envelopes (ballots) and announce it and enter the number on the Tally Sheet¹ and Tally Wall². Then the Election Committee is to put undeliverable envelopes in a secure place.

¹ Tally Sheet is an 8 ½ X 11 sheet of paper that is used for an Election Committee member to chart each vote cast towards each ballot measure, office and or candidate.

² Wall Tally is the tallying board which could be a chalkboard, dry-erase white board, easel post-it pad sheet or any other similar stand-up charting board for the purposes of a bigger crowd to see the tallying. This tally board is used for an Election Committee member to chart each vote cast towards each ballot measure, office and or candidate.

Step 2

All returned **self-addressed to P.O. Box G** shall be opened and the inner labeled coin envelope containing the printed name, signature and enrollment number shall be removed **keeping the inner labeled coin envelope sealed.**

If there are two inner labeled coin envelopes in the self-addressed Box G envelopes from two different eligible voters then both inner labeled coin envelopes shall move forward to the step two process and shall not be disqualified.

Step 3

The **inner labeled coin envelopes** which have a label of the signature, printed name, and enrollment number, shall be visually checked against the **Official Voting Roll** and marked on the Official Voting Roll as inner labeled coin envelope received. The coin envelope should remain sealed.

•**ACCEPTABLE SIGNATURE VARIATIONS:** Signatures shall be acceptable for the following variations in conjunction with the enrollment number. Examples of valid signatures are:

John

- | | | |
|-----------------|--------------|----------|
| John A. Doe | John Doe | J.A. Doe |
| Johnny A. Doe | J. Adams Doe | |
| Jonathan A. Doe | Jonathan Doe | |

The above examples apply to any Junior (Jr.) and Senior (Sr.) variations.

Step 4

After all **inner labeled coin envelopes** have been verified for printed name, signature and enrollment number, they are to be counted and listed as the total number of inner labeled coin envelopes received and should be recorded in the Teller's Report.

INFORMATION REGARDING DISQUALIFIED "COIN" ENVELOPES

Any "**inner labeled coin envelopes**" that are **not identifiable** shall be deemed disqualified and tallied by the Election Committee. If **two inner labeled coin envelopes** are received from the **same voter** then only one will be counted.

Inner labeled coin envelopes shall only be disqualified if they are not identifiable.

If the Election Committee disqualifies an inner labeled coin envelope, they are to record in writing the reason for disqualification. Disqualified **inner labeled coin envelopes** shall be grouped together and set aside in a specific designated space.

Step 5

The **inner labeled coin envelope** is opened and the **ballot** is removed. The **ballot** shall remain folded and placed into the empty ballot box.

Step 6

The **empty inner labeled coin envelopes** shall be either banded together or put into a large folder or box and held until the Chairman of the Business Committee officially declares the result of the election.

INFORMATION REGARDING DISQUALIFIED BALLOTS

Any opened labeled coin envelope **containing more than one ballot** shall disqualify the **envelope and ballots inside it**.

If the Election Committee disqualifies the envelope and ballots, they shall record in writing the reason for disqualification of the opened labeled coin envelope and ballots in the Official Voting Roll Sheet. Disqualified **opened labeled coin envelopes with ballots** shall be grouped together and set aside either by using a rubber band, large folder, or box. These document(s) shall be held until the Chairman of the Business Committee officially declares the result of the election.

Step 7 (Opening the Folded Ballot)

After placing all folded ballots into the empty ballot box, each individual ballot is completely unfolded and placed upside down in one single pile.

Step 8 (Challenging the Validity of a Ballot)

Each Election Committee member shall be able to challenge whether the ballot is valid or not. If an Election Committee member challenges the validity of a ballot, the majority vote of the Election Committee shall determine the validity of said ballot. It shall be the Election Committee's goal to qualify as many ballots as possible.

If a ballot is deemed to be invalid and disqualified, the Election Committee shall record in writing the reason for disqualification. Disqualified ballots shall be either rubber band together or put into a large folder or box and held until the Chairman of the Business Committee officially declares the result of the election.

Step 9 (Reading the Votes Cast)

The Election Committee member is to immediately read the votes cast for each candidate for each office and tally on the Tally Sheet Count and the Wall Tally. Valid ballots shall be placed into the valid group pile.

Once the counting of the ballots is initiated the process must be completed until the Election Committee finalizes its tabulation. The ballots shall not be moved from the tabulation location until the tabulation is complete. If the Election Committee adjourns prior to finalizing its tabulation, the election shall be void. It is strongly encouraged that the Election Committee members refrain from outside dialogue.

Step 10

After reading all the votes cast from the ballots, the Election Committee is to count the total number of valid ballots, invalid ballots, total ballots and record on the Tally Sheet and Tally Wall.

Step 11

After all the ballots have been read and tallied on the Tally Sheet and the Tally Wall, the Election Committee is to count the votes cast for each candidate in each office and or ballot measure (including no votes cast and write-in votes) and total on the Tally Sheet and Tally Wall.

The Election Committee should verify that the Tally Sheet Count and the Tally Wall Count agree. If they agree, the Election Committee is to declare that the Tally Sheet and the Tally Wall are accurate. Then the Election Committee should record that the total number of ballots cast have been counted.

Variance between Tally Sheet Count and Tally Wall Count

If there is a variance between the Tally Sheet Count and Tally Wall Count, the Election Committee is to recount the tallies for the candidates and offices where there was a variance until they become reconciled. If they can not reconcile the variance between the Tally Sheet Count and the Tally Wall Count then they are to reread and re-tally the ballots.

If the win for any elected office is four (4) votes or less, then a recounting of the ballot for that office should take place again.

Step 12

Ballots and signed envelopes shall be kept in a secure place designated by the Election Committee Chairperson until the election is declared valid.

Teller's Report

The Election Committee Chairperson shall prepare in duplicate an Elections Result Report form as follows: Number of ballots mailed out, Number of ballots returned, Number of ballots disqualified, Number of valid ballots counted, and Number of votes for each candidate by office. The Election Committee members shall certify by signing the Elections Result Report.

Passing on the Teller's Report

On the morning of the second Sunday of the Annual General Membership Meeting/Annual Election Meeting or Special Meeting, depending on the circumstance, the Election Committee Chairman shall provide a copy of the Teller's Report to the Chairman of the Rincon Business Committee, who shall declare the names of those elected and certify the election according to Section 10 (d), *Declaring the Result of Election*, of this Ordinance.
